

The aggregates industry in Great Britain –
its structure, markets and prospects

The aggregates industry in Great Britain – its structure, markets and prospects

Contents

	<u>Page No</u>
Executive Summary	1
1. Introduction	3
2. Market Size	4
2.1 Current market size	4
2.1.1 Aggregate market trends and forecast, 1970 to 2023	7
2.2 Primary aggregates market	9
2.2.1 Crushed Rock	15
2.2.2 Sand and Gravel	17
2.3 Recycled and Secondary Aggregates	19
2.3.1 Recycled aggregates market	20
2.3.2 Secondary aggregates market	22
3. End use applications and trends	24
3.1 Trends and analysis of product end uses by aggregate type	24
3.1.1 Primary Aggregates	24
3.1.2 Recycled and Secondary aggregates	32
3.2 Trends and analysis by market sector	33
3.2.1 Buildings and structures	36
3.2.2 Infrastructure	39
3.2.2.1 Roads	39
3.2.2.2 High PSV	42
3.2.2.3 Rail	44
3.2.3 Other	44
4. Future prospects, taxation and geopolitical influence	45
4.1 Gross Value Added and taxation	45
4.2 Geopolitical influence	46
4.3 Future prospects	49
5. Sustainability	56
5.1 General	56
5.2 Movement of materials	57
5.2.1 Rail	58
5.2.2 Water	61
5.3 Materials reuse and waste	65
5.4 Mineral planning and site restoration	67

6.	Industry structure and markets	68
	6.1 Industry structure	68
	6.2 Company market shares	69
	6.2.1 Primary Aggregates	69
	6.2.2 Crushed Rock	71
	6.2.3 Sand and Gravel	73
	6.2.3.1 Land won	73
	6.2.3.2 Marine	75
	6.2.4 Recycled and Secondary aggregates	77
	6.2.4.1 Recycled Aggregates	77
	6.2.4.2 Secondary Aggregates	78
	6.3 Major aggregates producers in Great Britain (2016)	79
	6.3.1 Tarmac	79
	6.3.2 Aggregate Industries	81
	6.3.3 Hanson	83
	6.3.4 Cemex	84
	6.3.5 Breedon	85
7.	Industry reserves, landbanks and movement of aggregates	88
	7.1 Planning background	88
	7.2 Industry reserves and landbanks	92
	7.3 Sand and Gravel	96
	7.4. Crushed rock	98
	7.5 Recycled and Secondary aggregates	100
	7.5.1. Recycled Aggregates	100
	7.5.2. Secondary aggregates	100
8.	Summary	102

Charts

1	GB Aggregates Market Breakdown in 2017 (million tonnes)	5
2	Drivers for demand	50
3	Major changes in industry structure 2010-2018	87

Graphs

1	GB primary aggregate production from 1970 to 2023	8
2	Estimated split of aggregate output	11
3	Comparison of market share for total sand and gravel and crushed rock respectively 2000-2019	12
4	Comparison of market share of crushed rock, by type 2000-2018	16
5	Market share of production, sand and gravel, 2000-2018	18
6	Market shares of key waste materials in secondary aggregates	23
7	Production of sandstone by end-use 2000-2017	24
8	Production of limestone by end-use 2000-2017	25
9	Production of hardstone by end-use 2000-2017	26
10	Production of sand and gravel by end-use 2000-2017	28
11	Trends in aggregate production by main product type 2000-2017	29
12	Trends in aggregate production by separate product type 2000-2017	30
13	GB aggregates, cement and ready mixed concrete production, 1970-2023	38
14	GB total aggregates and asphalt production, 1970-2023	41
15	Construction product output forecast to 2020	52
16	Aggregate sales moved by rail 2008 to 2015	58
17	Rock wharf landings in Great Britain 2001-2016	62
18	Market shares of the top five producers of crushed rock	71
19	Regional split of the top five producers of crushed rock	72
20	Market shares of the top five producers of land won sand and gravel	73
21	Regional split of the top five producers of land won sand and gravel	74
22	Market shares of the leading companies landing marine-won sand and gravel	75
23	Regional split of marine won sand and gravel companies, GB	76
24	Percentage split between the top ten companies producing recycled aggregates	77
25	Regional summary of all primary aggregate outputs, Tarmac	80
26	Regional summary of all primary aggregate outputs, Industries	82
27	Regional summary of all primary aggregate outputs, Hanson	83
28	Regional summary of all primary aggregate outputs, Cemex	84
29	Regional summary of all primary aggregate outputs, Breedon	86
30	Permitted GB aggregate reserves	93
31	Share of total reserves by product	93

Maps

1	Distribution of primary aggregate sources in Great Britain	10
2	Estimated outputs of crushed rock by region (2017)	13
3	Estimated outputs of sand & gravel by region (2017)	14
4	BDS regional structure	70

Tables

1	Contribution from added value markets to aggregate companies 2017	35
2	Restoration against extraction	67
3	Summary of the top five aggregates companies market share 2016	69
4	Major planning consents since 2015 for more than 5 million tonnes of reserves (to June 2018)	95
5	Summary of sand and gravel reserves of the top five companies	96
6	Summary of crushed rock reserves of the top five companies	98
