

Estimated outputs of asphalt plants in Great Britain (2018)

This is the only published source of information providing outputs for the asphalt industry down to individual plant level. Market shares by company, county, region and nationally are shown.

This is essential reading for companies involved in asphalt production and those supplying into the industry. It will also be invaluable to companies looking for investment opportunities in the industry in Great Britain.

A detailed forecast on key construction sectors, as well as a specific four-year forecast for the asphalt market, is included.
