

# 2021 Outputs for Concrete Product Sites now published!

BDS has published its latest annual concrete product reports to provide information on the concrete product industry in Great Britain. The three individual reports, identified below, and published in April 2023, provide estimates of outputs and market shares by concrete product plant and company for Great Britain in 2021.

**Estimated Outputs of Concrete Building Block Plants in Great Britain** - In 2021, BDS estimate the concrete building block market in Great Britain to be nearly 79 million m<sup>2</sup> with aggregate building blocks contributing a share of 72% and the remainder (28%) accountable to aircrete building blocks.

**Estimated Outputs of Concrete Block Paving Plants in Great Britain** - In 2021, BDS identified 33 concrete block paving plants operating in Great Britain with an estimated total market value of ~18 million m<sup>2</sup>.

**Estimated Outputs of Concrete Paving Slab Plants in Great Britain** - BDS estimate the concrete paving slab market for 2021 to be ~17 million m<sup>2</sup> accountable from 50 plants operating in Great Britain.

The three reports are from a suite of output focused reports produced by BDS. Other reports include:

- Estimated Outputs of Pits & Quarries and Marine Wharves in Great Britain (2021)
- Estimated Outputs of Asphalt Plants in Great Britain (2021)
- Estimated Movements of Aggregates from Rail Depots in Great Britain (2021)
- Estimated Outputs of Ready-mix Concrete companies in Great Britain (2021)
